

Wolf Pack

**The Warrior, the Wolf Pack
fierce and courageous.**

**Beloved by the Lord, slaying the enemy with the sword,
part of the one accord, spoken;
that cannot be easily broken.**

**A majestic token
of Royalty.**

**A vital role the men held during the reign of King Saul.
With a mindset to defeat not one, but all.**

**They are built with great stature.
given might as they capture.**

**Breaking bones, not just a hairline fracture.
Commandment keepers, moving in confidence to represent
the mighty Tribe of Benjamin.**

**Island treats playing the Maraca's, very skillful at the drums.
Feast days dancing and singing, songs and hums
from brothers, fathers, sisters, and mums**

**Standing bold and tall, emerged in their Truth call,
Before, during and after the brawl.
Their battle is won before it starts, rather big or small**

When they cry aloud, it is distinct with vigor and sends a warning.

**Take heed to the sound, 12 tribes give a listening ear
our God we must fear,
He sends his voice through them.**

**They blend with the darkness of the night.
When they prowl this can be a frightful sight
Yet they walk in glory of The Most High's light.**
