

**Topic:** Cruel Mothers vs. Nurturing Mothers

**Hostess:** Mother Naamah (HO Deacon Asaph) - NY HQ

**Event:** Titus 2 Chat

**Date:** 5 July 2023

**Titus 2:3,4 KJV**

- We will focus on how to love your children tonight.

**Deuteronomy 6:7 KJV**

- Teach the commandments to your children throughout the day whether you are inside or outside of the house. They need to be taught the commandments when they wake up and before they go to bed.
- Have this discussion with your children so they know what's against the most High's laws.

**A. What does a cruel mother look like?**

Video: Toddler given marijuana

[<https://www.wxii12.com/article/winston-salem-police-investigating-after-reports-of-video-showing-children-smoking/22856446>]

- As mothers and repenting Israelite women, we have to be aware of who our companions are. We can not leave them with people who set a bad example.

**Psalm 119:63 KJV**

- Our friends in this truth need to be other people who keep the commandments.
  - It is cruel for you to have your children around those who are using drugs, and drinking.
  - E.g. If I know that you have foul speech, I am not bringing my children around you.
- There is a way you should conduct yourself when around children because it influences the way they think, speak, and behave.

*Caption 1: These images are promoting violence, drug use, and gangs to children.*

- As a repenting Israelite mother, you can not do this. This is cruel and evil. Remove your children from this vicious cycle so they don't end up in jail, killed, stabbed, or shot.
- You are to protect your children. They should not be around this behavior. They will mimic the behavior they see and have worse results.

**Caption 2:** The sister in this photo has her middle finger up. The man with the blue hat is doing gang signs. They are showing off money.

- This is not what your children should be around.

## **II Corinthians 6:17 KJV**

- When we repent as women, we have to come out from this wicked behavior. You would have a reprobate mind if you are still like this in the truth.
- If you want your children to grow up, be virgins, get married, get their education, and keep God's laws, this is NOT the type of environment they should be around. It may be your family members, but you need to come out to get godly results.

**Caption 3:** Lori Harvey kissing up on various men.

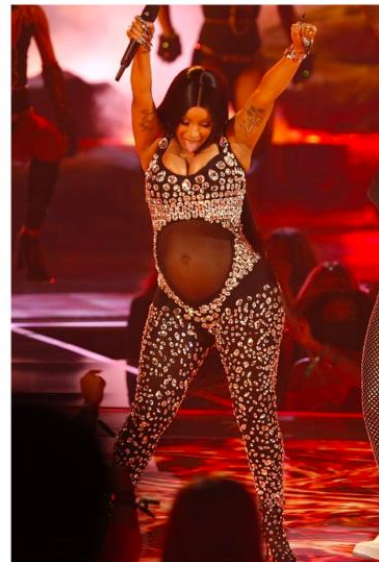

- If you are single, you should not be hugging and kissing different men. This is teaching your daughters to be whores and that having a whoremonger spirit is okay for your sons.
- Some of these men may target your younger daughters to molest them. They may be sodomites and try to have sex with your son.
- It matters who you hang around.

*Caption 4: A woman with several men.*

**Ezekiel 16:44 KJV**

- As is the mother, so is the daughter.
- If you dress like a whore, your daughter is going to dress like a whore. Showing your body, sitting on men's laps, and letting them kiss your hand is out of order.
- If you dress like a whore, you will get treated like one. We and our children need to be modest and we need to set that example.
- They should be no whores amongst the daughters of Israel. The scriptures tell us to be shamefaced.

*Caption 5: Women dressed in immodest apparel.*

- Some sisters are modest on the sabbath but dress like the pictures above during the week.
- The example you set is what will come across to your children.

**1 Timothy 2:9 KJV**

- Adorn yourself in modest apparel.
- Modest means covered up. Your cleavage, butt, and tongue should not be out.

- As a mother, you need to make sure your daughter has modest skirts that go to her ankles, and wear shirts that cover her cleavage. She needs to know that she is worth more than her body.
- A virtuous woman does not look or behave like this. Teach your children “WHY” they should and should not be doing certain things.

*Caption 6: Shameless daughters smoking and hanging out with men.*

**Sirach 26:10,11 KJV**

- If your daughter has a shameless spirit, keep her straight. Throw the hoe clothes away and buy her new modest clothes. You are to instruct your child; they are not to be telling you what to do.
- You need to break the cycle. (E.g. If grandma is dressing like a whore, your child should not be around her!)
- Watch over an impudent eye = Pay close attention to her.

**Deuteronomy 28:56 KJV**

- Do not bring your children near an evil way (smoking, violence, drugs, immodest apparel, etc). Remove them from this type of environment.

Caption 7: Drunk women.

- Do not drink to drunkenness. You are breaking God's laws when you are dressed provocatively and drinking to drunkenness. We will not enter the kingdom this way. This is EVIL.

Caption 8: Women wearing bikinis at the beach.

**Proverbs 22:6 KJV**

- Train up your child by teaching them the laws.
- You do not go to the beach in bikinis or hang with girls dressed this way. Men will lust after you.

Caption 9: Women fighting.

- It is cruel to have your children surrounded by violence. As an Israelite woman, you should not be laughing or entertaining fights and violence.
- If you want something different, take your children out of these cruel environments.

### **B. Nurturing Mothers**

- Look at your children like they are gifts from the Lord.

#### **Psalms 127:3 KJV**

- Children are a heritage from God. It is a reward when you get pregnant. You are supposed to love and take care of them. Raise them up in God's laws.

#### **Proverbs 17:6 KJV**

- Your children should be your crown or your pride. You are raising them in the laws, statutes, and commandments. When you get older, you should be proud that they were raised in the truth, got married, had children, and still take care of you.
- You will not get these results if you are hanging around evil.

Raise your children's self-esteem!

#### **Psalms 139:14 KJV**

- Tell your children that they are fearfully and wonderfully made in the Lord. We stand out and we are different. We are royal.

#### **Amos 3:2 KJV**

- Teach your children that out of all the nations, the most High only knows you - the Israelites.

#### **Revelation 1:6 KJV**

- Teach your sons that they are kings and priests.

#### **Proverbs 22:6 KJV**

- Pay attention to what your children are watching. Their minds are still developing at a young age. Esau is crafty. Get off of social media and pay attention to who your children speak to, and what they watch.
- I play classy/jazz music when I am homeschooling my children. I sit with my children every day and teach them their schoolwork. If there is a concept they do not understand, we do night school!
  - As a mother, you are their first teacher. The school system is our assistant. It is not their job to teach. It is not easy. It is your job to make sure they know science, math, English, the commandments, etc. Failing is not an option.
  - The world is against our children, we need to make sure their self-esteem is through the roof! You have to let them know they are doing a good job. Do not be a quitter. Let them know that there is nothing that they can not do.
- I am planting the seed now and will get the reward later. That is the faith that I have and pray for. Apply what God says.
  - Even when you are on the phone, your children can hear you from a different room. Be mindful of what you say and who you say it to. Do not let your children hear adult conversations.

### **I. Homeschool and Consistency - Yo'ela HO Deacon Isaac**

#### **Isaiah 32:9 KJV**

- Get yourself together especially when it comes to your children's education.

### **Proverbs 25:28 KJV**

- It is easy to be a ratchet woman. Being an Israelite woman is not for the weak. Get up, keep the commandments, pay attention to your children, and put your mind to it.
- Tip: Prioritize your time. Your children come first and your business comes second.
- Outside of public school, I check their homework, and tutor, and focus on the application of the commandments with scenarios.
  - I teach them how to handle various situations, how to think, affirmations, confidence building, and how to conduct themselves in this wicked world. It is important to have mind control.
  - We also focus on physical health and financial health.
- During the summertime, I give them grade-appropriate word books, and we go on field trips.
- I also utilize the sisters with resources around me. For instance, there is a sister who creates Israelite-based workbooks in Texas. Sister Phebe is a principal, so I booked a consultation with her for advice on homeschooling children in different age groups. One of the YDOS tutors one of my sons twice a week. One of the officers tutors my older son in math.
- Throughout the school year, Sister Selah - NJ helps my son with reading. She is a third-grade teacher.
- Keep doing something every day and trust the process. Your children should be your top priority. We can not raise light-minded children.
- Teach your children based on what fits with your household.

## **II. Being a Working Mom & the Struggles of Educating Your Children - Mother Shamarah**

### **I Timothy 4:12 KJV**

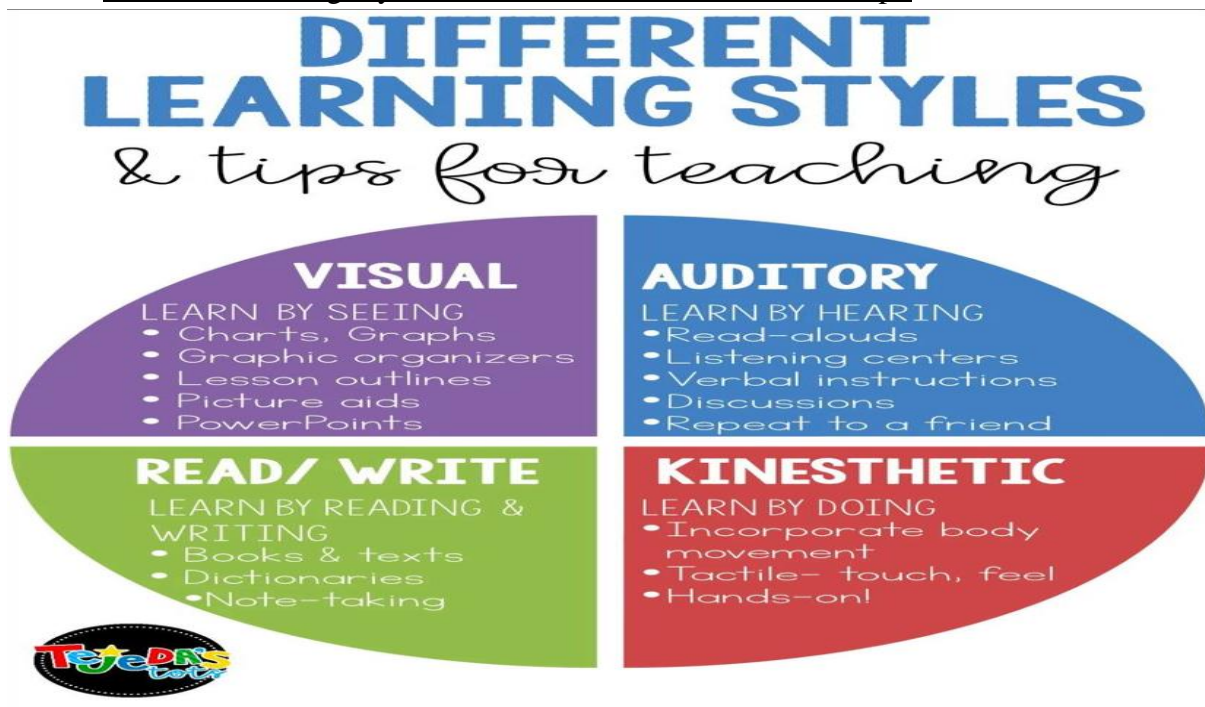

- Know the gifts of each of your children. All children have different skill sets. Know the state of their spiritual well-being, their strengths, and their weaknesses.
- It has been a continual struggle putting my children through private school, public school, and now my youngest son is home-schooled. I have had to balance my business schedule, work schedule, and work-out schedule around school trips and always being there for my kids. We are supposed to be their cheerleaders!
- There will be times when you get a lack of sleep as a mom, but you have to make sacrifices. I have been up at times at 3 am helping with school projects.
- "A child only educated in school is an uneducated child." - George Santayana
  - One of the best compliments a mother can receive is that they have raised God-fearing children that keep the commandments. The goal is that one day they will have their own families and teach their children to do the same.
- "Only a fool will let the enemy teach his children." - Malcolm X

- We are above all people according to the scriptures. Our children must look up to our forefathers such as Solomon, Joseph, and Moses as role models.
- Mother Wound: A loss or lack of mothering.
  - Mothers unintentionally hurt their children emotionally or psychologically.
  - There is a deficit in the relationship between a mother and her daughter &/or son.
- It is important to get counseling as we break generational curses.
- Referenced class: TheIsraelites: Time Management in 8 Hours - IUIC in the Classroom  
[<https://www.youtube.com/watch?v=7xR17SxkAuw>]
  - You must delegate and manage your time.
- Speak to leadership wives and other sisters in the body to find the best niche that is needed for your particular household.

III. Different Learning Styles - Mama Naamah HO Deacon Asaph

- Each child learns differently. Do not put the same expectations from one child to the next child. It will impact their self-esteem. Each of your children have different gifts.

**Daniel 1:17-20 KJV**

- Tell your children that they are intelligent just like their forefathers. It is in their blood to be the wisest. Push in your son's heads that they are kings and we got next.
- You can not help your children if you are not reading and studying.

IV. Patience - Anaiyah HO Captain Gideon - Boston, MA

- Patience with children is a skill that comes with time. It is all about your mindset.

**Ephesians 4:23 KJV**

- Be renewed in the spirit of your mind.

#### **Romans 12:2 KJV**

- Be ye transformed by the renewing of your mind.
- Identify your triggers to be fully aware and present. You want productive children. Be mindful not to quench your children's spirits (see I Thessalonians 5:19 KJV).
- Self-reflect and come up with a plan for your children.
- Have reasonable expectations for your children.
  - They all have different spirits, ages, and mental capacities.

#### **Luke 21:19 KJV**

- In your patience possess ye your souls

#### **Romans 7:12 KJV**

- Good is keeping the commandments.

1. **Restate**= Communicate your expectations
2. **Rethink** = About what is happening or what just happened
3. **Reevaluate** = Figure out if things are reasonable
4. **Relax** = Think about how you are approaching the problem
5. **Regroup** = Actively work on the situation

- Rule your spirit as you change your mindset (see Proverbs 25:28 KJV).
- Understand that mistakes will happen but we have the power to learn from our mistakes and make better choices.

#### **Galatians 5:22 KJV**

- Fruits of the Spirit.
  - Practicing patience lessens your frustration, and teaches your children valuable skills in their lives.
  - Display patience with your words and deeds.
- Have faith and believe that you can do this and achieve.
- If at first, you don't succeed, try and try again! Do not quit.
- Most of my time is dedicated to my daughter and newborn son. Be content with what you have. It is okay that you are no longer working. Your children will not be little forever.

#### V. Homeschooling Resources - Mother Azaryah HO Deacon Abbayael

- My oldest daughters were having difficulties in school, so I prayed about it. Now most of my children are independent in school and are thriving.
- Sex is all fun and games until responsibilities come and you have to put your big girl underwear on.
- I have teamed up with Ashira and Judea this summer from 8 am - 12 pm to help our youngest children become strong readers.

Summer Schedule 2023	
8 am	Morning prayers - make bed - brush teeth / wash face
8:30 am	Breakfast
9 am	Clean up
9:30 am	Read 4 chapters - 15 mins w/ the captains (write notes)
10:30 am	Summer bridge and reading comprehension worksheets
noon	School is over! Lunch time

- You are a different mother for every kid. I am focusing on setting goals and knowing my children. You can not be checked out on social media. Your children come first. Take pride in ordering your household.

#### **Proverbs 14:15 KJV**

- Simple man believeth every word.
- Do your due diligence. There are resources such as Onet, and OOH [<https://www.bls.gov/ooh/>], that provide information about different opportunities and job outlooks.

Video: He's only 13 years old and graduating with a college degree. What's next? | USA TODAY [<https://youtu.be/WA8r1Vj7lm8>]

- Consider having your child do dual enrollment or CLEP exams to get college credits while in high school.
- You are never too old to learn something. Reach out to leadership and your educators. We are one body in Christ (see Romans 4:12 KJV). Do not have the crabs in a barrel mentality.
- ACT scores are key to getting into college! You can get scholarships if you score well.
- Your children can also get their GED.
- You have to check your children's work! They will try to get over on you. Do not get lax.

#### **Philippians 2:2 KJV**

- Be like-minded and on the same accord.
- Teach your children life skills and the commandments. Anything can turn into a lecture. Apply the scriptures to the real world.

VI. Full-Time Working Mom of 6 and Homeschooling - Sis Adira (HO Sol. Micah) - CT

- Homeschool Program: <https://acellus.com/>
  - Work with teachers in between work meetings and in the evening if needed. The children are independent through this program but I still come in and help them as needed.
- After each video lesson, there are a few questions that correlate to what was taught.
- There is a help tab that involves another teacher to teach the same thing but in a different way to help the student.
- At the beginning of the school year, I set a goal of how many lessons each of my children are to complete each day.
- Depending on the pace of your child, they can do their assigned lessons per day or do several days' worth of assignments in a day. Their schedule is very flexible.
- Their GPA is at the top. You can see the grades they get on each assignment for each subject. You have the opportunity to retake exams to get a better score. Extra credit is available.
- Special lessons are hands-on assignments. They have an online library in addition to science labs available.
- The schedule is flexible and you can set the hours that fit your schedule and household needs. They can rewind and pause any lesson. You are given the syllabus for each class.
- There is an option to skip your child a grade if you feel that they are excelling. There are honors classes available. If your child is struggling with a subject, he or she can do the previous grade-level work.
  - E.g. Taking 5th grade math and the rest of your classes are 6th grade level work.
- An online app is available for parents to keep track of their child's scores.
  - There is a live monitoring system to see if your child is online working in a class.

- This particular program is \$320/month and can be \$80/month if you get a scholarship code. You get an additional discount if you have multiple children enrolled.
- There are free programs available as well but you have to do your research. There are many homeschool options available for your child.

Shalom MHNCB!
