

Topic: The Dangers of Disobeying Your Parents (Teen Pregnancy) Part 2

Hosts: Mother Shamarah, Susanna Israel

Event: Princess Corner (Florida Edition)

Date: 9/26/2020

PARENTAL ADVISORY EXPLICIT CONTENT

Susanna: Today, we will be discussing teen pregnancy. The topic will be heavy because I will be addressing biological, physical, emotional stuff and it may contain some strong language. One result of fornication is teenage pregnancy. What is fornication? Fornication is two people, a man and a woman, having sex, who are not married. There are many negative effects of teenage pregnancy.

- **1 Corinthians 6:9-10 (KJV)**

9 Know ye not that the unrighteous shall not inherit the kingdom of God? Be not deceived: neither fornicators, nor idolaters, nor adulterers, nor effeminate, nor abusers of themselves with mankind,

10 Nor thieves, nor covetous, nor drunkards, nor revilers, nor extortioners, shall inherit the kingdom of God.

Susanna: Fornication is sin and if we are committing sin, we are not getting the kingdom. When Christ returns and we are getting lifted into a spaceship, you're going to be left behind with your pregnant belly. If you are out here having sex, you are not getting the kingdom of God.

- **1 Corinthians 6:18-20 (KJV)**

18 Flee fornication. Every sin that a man doeth is without the body; but he that committeth fornication sinneth against his own body.

19 What? know ye not that your body is the temple of the Holy Ghost, which is in you, which ye have of God, and ye are not your own?

20 For ye are bought with a price: therefore, glorify God in your body, and in your spirit, which are God's.

Susanna: I know that right now a lot of you teenagers are starting to have different feelings and urges as your bodies are changing. Adults have the same feelings as well, but we must learn how to mortify our members as the scriptures say. That is why we must contain ourselves in this fight and kill off those things that will keep you from getting the kingdom. The best thing to do is to talk to your mom or an auntie who you trust. You must tell yourself that regardless of the feelings and thoughts you may have, you cannot act on them. At twenty years old, you are at a marriageable age.

What Is Teenage Pregnancy?

Teenage pregnancy is when a woman under 20 gets pregnant. It usually refers to teens between the ages of 15-19. But it can include girls as young as 10. It's also called teen pregnancy or adolescent pregnancy.

-Link to video discussed: [Three Sunsets: Early Marriage in Ethiopia](#)

Susanna: These are the consequences of getting pregnant under twenty years old. The Most High knows that when a girl is under twenty years old, her body is not ready to carry a child yet. The girls in the video couldn't even go back home to their villages after contracting that disease. They must survive by entering prostitution or working laborious jobs while they smell like nasty, rotting fish and cannot control pooping and peeing on themselves. That is judgment from the Most High. Other times with teen pregnancy, you may have a lack of health care. The baby will be at a higher risk of developing mental retardation or coming out too early. Wait until you are married to have children and honor the age of twenty years old.

- **Sirach 42:9-10 (KJV)**

9 The father waketh for the daughter, when no man knoweth; and the care for her taketh away sleep: when she is young, lest she pass away the flower of her age; and being married, lest she should be hated:

10 In her virginity, lest she should be defiled and gotten with child in her father's house; and having a husband, lest she should misbehave herself; and when she is married, lest she should be barren.

Susanna: The scriptures tell us that your parents are going to be worried about you. You won't fully understand why until you actually have your own children once you are married. Your parents know the dangers of what could happen to you when you are young. They don't want you to lose your virginity. It is a shameful thing to have a child in your father's house.

-Link to video discussed: [STRUGGLES AS A TEEN MOM!! |The Real Tea Sis](#)

Susanna: The young lady basically went over some of the struggles that she faced as a teen mom. One of the struggles she mentioned was going to school. Once you get pregnant it is very difficult to continue going to school. Your parents must work, and you must work in order to pay for your expenses. Who will take care of your baby? Babies need attention 24/7. A newborn baby wakes up every two hours, leaving you with no sleep or break. You will have no time to finish school. You can't just get up and go to work because you don't have anyone to watch the baby. You would have to pay a lot of money for childcare. You also must pay for things like, clothes, diapers, wipes, formula, toys, etc. All your money will be going towards your baby.

FIRST YEAR BABY COSTS	
GEAR	
Carseat	\$150-\$500
Pram	\$100-\$2000
Baby carrier	\$50-\$200
Clothing	\$300

OTHER	
Childproofing supplies	\$100
Safety gates	\$80-\$150
Dummies	\$15
Books	\$50
TOTAL \$4545-\$15,910	

Mother Shamarah: I've seen this happen before. The young lady that my parents adopted ended up getting pregnant as a teenager. The baby's father was nowhere to be found so she had to drop out of school and began stealing from my parents. She didn't realize all the time, expenses, and dedication it would take to raise a child and be fully responsible for it. Society makes it look glamorous when you see people like Cardi B, get pregnant and still twerking at 8 months. That is not real life. God's laws protect you from the evils to come. These classes are very important to teach you girls that when you disobey your parents, you are spitting on God's protection for you. You will have a very hard life, and when you do not listen, you will regret it. You may even end up on section 8 or public housing. The state can also take away your children from you if they see you are not a good mother. Right now, you can live in a righteous household and learn how to be a repented Israelite woman, a righteous daughter, and a proper wife. When the time comes for you to give birth to righteous children, you will know exactly what to do.

Susanna: It is a shameful feeling when you are around your family members and your pregnant stomach is sticking out at fourteen years old. People are going to be very disappointed in you and

you will feel terrible. After having a baby, you will have no time for yourself to do anything. The baby will need to be fed, a diaper change, attention, and put to sleep. You won't have a lot of time to take care of your own basic needs like eating, showering, sleeping, etc.

Newborn Nighttime schedule

7:30 PM – Wake & preparing for sleep*

8:00 PM – Bedtime

10:00 PM – Eat & Diaper Change

10:30 AM – Sleep

12:30 AM – Eat & Diaper Change

1:00 AM – Sleep

4:00 AM – Eat & Diaper Change

4:30 AM – Sleep

6:30 AM – Eat & Diaper Change

Susanna: Having a baby can cause you to feel extremely stressed out and depressed. You will feel like you need a break to relax and you will not be able to get one because nobody wants to watch your baby. By you getting pregnant as a teenager, you are allowing that cycle to continue. Your child is going to think that getting pregnant before marriage is acceptable.

11 Facts About Teen Pregnancy

1. 3 in 10 teen American girls will get pregnant at least once before age 20. That's nearly 750,000 teen pregnancies every year.
2. Parenthood is the leading reason that teen girls drop out of school. More than 50% of teen mothers never graduate from high school
3. About 25% of teen moms have a 2nd child within 24 months of their first baby.
4. Less than 2% of teen moms earn a college degree by age 30.
5. The United States has one of the highest teen pregnancy rates in the western industrialized world.
6. In 2011, the teen birthrate in the United States fell to the lowest level recorded in nearly 70 years of tracking teen childbearing.

7. In 2008, the teen pregnancy rate among African American and Hispanic teen girls, ages 15 to 19, was over two and a half times higher than the teen pregnancy rate among white teen girls of the same age group.
8. 8 out of 10 teen dads don't marry the mother of their child.
9. A sexually active teen who doesn't use contraceptives has a 90% chance of becoming pregnant within a year.
10. More than half of all mothers on welfare had their first child as a teenager. In fact, two-thirds of families begun by a young, unmarried mother are poor.
11. Teens had fewer babies in 2010 than in any year since the mid-1940s.

Susanna: A man who really loves you will wait until marriage to have sex with you. If he can't wait, then you need to tell him to keep it moving. You don't have to give your body away to anybody but your husband, you are a princess. Remember that you are not an adult yet and you do not know more than your parents. If you walked out of your house, you would have nowhere to go. Some of you think that when you get pregnant it's all about being cute with a belly. When I was pregnant, I was throwing up three times a day and sometimes I would pee on myself. Another symptom of pregnancy is random burning and itching in your vaginal area and hair falling out. When the time comes to give birth, you are going to experience the worst pain of your life. Sometimes the doctor will need to cut your vagina without anesthesia just so the baby's head will fit through.

Mother Shamarah: It only takes the meeting of a vagina and a penis with sperm to create a baby. We don't teach "protective sex" we teach avoidance of fornication like the scriptures. This way when you are married and you lay down with your husband, you will be able to produce a child with his seed, this is what the Heavenly Father has ordained between a man and his wife. If you do anything outside of the construct of marriage, these are the issues you will have. When I lived in the projects, there was a family who lived near us and the mother and daughter were both pregnant at the same time. That is a damn shame. As is the mother, so is the daughter. We must be very careful about the examples we set for our physical and spiritual daughters. It is our responsibility to teach the young generation of women who are coming up, to not make the same mistakes that we did when we were growing up.

Q&A

Question: What happens to girls who get pregnant in the truth?

Answer: So, that is something that leadership will deal with as they see fit. I'm not sure about how cases of teen pregnancy are dealt with in this truth but with adults, you may be separated from the body for a time and then brought back. Our hopes are that you continue in the truth. There is grace and forgiveness so we would want you to come back and repent.

Answer #2: To be clear, the purpose of having conversations like this are to avoid these situations from happening. If you know that you should be keeping God's laws, that will prevent

teen pregnancy. The agenda of our oppressor is meant to keep this cycle of abuse within our nation. If we continue with teenage pregnancy, abortion, etc., we are continuing this cycle. What prevents those things, is keeping God's laws?

Question: Are you required to have a baby if you are married?

Answer: The scriptures do say to be fruitful and multiply. If you can have a baby with your husband, then do so. The scriptures also say that God will save you in childbearing if you are keeping the laws, statutes, and commandments. Some people have babies with no complications and babies are flying out with no problem. That is due to grace from God.

Question: If you get pregnant at a young age, are you more prone to die while in labor?

Answer: Everything is of the Most High, he will have mercy on whom he will have mercy and other people he may not. You may not be so lucky, and you should be fearful leading up to labor.

- **1 Timothy 2:15 (KJV)**

15 Notwithstanding she shall be saved in childbearing, if they continue in faith and charity and holiness with sobriety.
