- Aztecs, also called Mexicans.
- Many Empires being attacked in **1492** by conquistadors, they were soon decimated by the effects of epidemic disease, military conquest, and enslavement, and, as with other colonized peoples.
- Their capture was led by a man called Cristóbal Colón which in English we know as Christopher Columbus, and he did lots of bad stuff
- The conquistadors killed surrounding Kingdoms as well like the Mayans, Incas and Olmecs today these can be grouped as Meso-American continents
