

**Tribe Spotlight: Zebulun**  
**10 Sailboat Fun Facts**

*Zebulun shall dwell at the haven of the sea; and he shall be for a haven of ships; and his border shall be unto Zidon.*

**Genesis 49:13 KJV**

- Large watercraft are generally called ships.
- Smaller watercraft are generally called boats.
- They are designed to float on water, whether it be in lakes, rivers or seas.
- Today, boats and ships serve a variety of purposes including transport, recreation, fishing, sporting competition and military operations.
- Some boats are human powered, including kayaks, canoes and gondolas.
- Sailboats are propelled by wind and sails.
- The tall upright post on a sailboat is called a mast.
- The hull is the main body of a boat or ship.
- Starboard and port are nautical terms which describe the right (starboard) and left (port) sides when facing the the front (bow) of a ship or boat.
- The rear part of a ship or boat is called the stern.
